

## Year 3

### Activities for the week beginning 30<sup>th</sup> March 2020

Hello everyone!

I hope you are all ok, keeping those minds and bodies active (not too active, be kind to your carers!) I know there was a good amount of work set to keep you busy and learning but here you will find additional activities. There will be different levels of challenge so you can choose how to begin. Take care of yourselves and your family.

Until next week! Mr Sime, Mr Benjamin, Jeff and the bears whose names I can't remember.

English activities:

Write an acrostic poem for the word 'grateful'.

Think carefully about how you would start each line.

E.g 'G' - Giving thanks for...

Challenge - Include adverbs when using verbs.

You can decorate your acrostic poem too.

#### An Acrostic Poem : Spring

S tarting fresh, a new season begins,  
P opping through the rocky ground,  
R eplacing the bare winter season,  
I nnocent lambs skip after their mum,  
N ew sights noticed every spring day,  
G reen colours appear overnight

Maths activities: <https://nrich.maths.org/2361>

Here is a picnic that Petros and Michael are going to share equally. Remember, look at all the items in the picnic.

**Easy:** Can you tell us what each of them will have?

**Medium:** How would you write the amount as fractions?

**Hard:** If they cut all of the pizza slices in half, what fraction would each child get then? Is this more, less or the same as the fraction in the photo?

**Extension:** With the help of an adult, can you divide an object(s) in your home into fractions?

Time for fun! - Build a reading den!

This is a simple activity using a few things around the house such as chairs and a sheet (cardboard boxes would work) to create a lovely space to read.

**Make sure to ask your adults for help and ask permission first.**
